

## PROHIBITION OF ON-STREET PARKING IN SNOWSTORMS

Whenever an accumulation of snow interferes with the normal flow of traffic in the Township, parking on Township roadways is prohibited until the roadways have been sufficiently cleared of snow.

This prohibition of on-street parking will assist the Township public works crews in removing snow more quickly and safely which in turn will result in a timelier return to full access to roadways for residents and emergency responders.

The full text of Township Ordinance 1993-33 pertaining to this matter can be viewed on the Township website.
